Our core values of communication, fun, innovation, personal development, professionalism and teamwork inform everything we do and have been at the heart of every development over the 30 years since we began.

# OUR HISTORY

Barracudas opened our first activity day camp back in 1992. The founder, Neil Greatorex worked in the industry for several years both in the UK and rolling out camps in Australia.

Beginning with one summer camp in London and one in Surrey, Barracudas offered something different for children during the school holidays.

Barracudas went above and beyond to offer the widest range of activities to suit every child's interests. Right from the beginning Barracudas offered activities kids didn't have the opportunity to do anywhere else.

We turned 30 years old last year and we couldn't let that go by without a bit of fun! We're only as good as the kids last day with us and we want every one of our campers to come back each and every year.
